

Kindergarten Remote Learning

Kick Off Week

April 6, 2020 – April 10, 2020

Kick off week – Pick up laptops, *try to get connected to i-Ready ASAP*, say hello on class dojo, try some of the activities on the remote learning bingo boards, and *most importantly stay safe and healthy!*

Teacher Email

Room 5 Miss McMaster mcmasterd@springfieldpublicschools.com

Room 7 Miss Krok kroke@springfieldpublicschools.com

Hello students and families. Welcome to remote learning from home. The work below can be done throughout the week. The activities follow parts of our daily schedule. Some families want a routine that they can follow at home each day. **You know your child and family's needs best, so please use whatever is helpful to you. What's important is everyone be safe, healthy, and have opportunities for meaningful learning.** Please contact us with any questions, comments, concerns, accomplishments, or just to say hello. We will send updates. If you have difficulties please let us know, so we can help. You can reach us through class dojo or email. **The district suggests 3 to 4 hours of learning each day. These are the activities that are the most important. Work on a little at a time and keep going!**

Daily Goals to Stay Healthy:

- Get up, get dressed, brush your teeth, and eat breakfast just like when you go to school.
- Focus on learning during learning time and take brain breaks between activities. Try some of the movement songs on the link posted below.
- Notice your feelings and stress levels so you can use your strategies

- Get exercise If possible, go outdoors: play, walk... but always be safe
- Set time limits for leisure playing with toys, coloring, napping, and tv/video games so you can get all your work done
- Complete chores, eat healthy meals, and go to bed on time so you can get up tomorrow

Daily Learning Goals:

- Log onto i-Ready and complete reading and math lessons. Complete 20 minutes of reading, 20 minutes of math (my path option and in addition work on the teacher assigned lesson)
- Complete activities on the remote learning bingo boards. Copies of the boards are posted below.

Daily Behavior Goals:

- Use appropriate school and home behaviors: be safe, be respectful, and be responsible

Here is everything you need to know
Do a little at time

School Home Expectations

We modified our school expectations to include your home. The children are familiar with these expectations. Use them if it is helpful. <..\RC & PBIS - Classroom Management\Visuals reminders and displays\Home School Behavior PBIS Pre K - 1.doc> M job is <..\RC & PBIS - Classroom Management\Visuals reminders and displays\My job is to... chart.pdf>

Mindfulness

First, take a breath & Get Ready for the day

Notice your feelings and stress levels. We are beginning to learn how to control our brain. Sometimes it's hard, but it's very important to know when I have strong feelings so I can calm myself, talk to someone, and try strategies to feel better. This is a stressful time filled with change. Our classroom visited the Mind Yeti website every day. Here is a link to some other videos that may be helpful. Select the whole link, right click select open hyperlink or go to..., then select play in the upper right corner, and click on a video to play.

<https://sway.office.com/nP9bPKYbpINi5cuF?ref=Link>

Learning Breaks Get Up & Get Moving

Remember to take movement breaks so your body and brain can work better. Try some of these videos. They are our class favorites. Select the whole link, right click select open hyperlink or go to..., then select play in the upper right corner, and click on a video to play.

MATH

AT HOME

BINGO

Choose one box to do each day and color it in. 5 in a row is a BINGO! Can you fill the whole board up for a mega BINGO?

Build a tower as high as you can out of blocks or plastic cups. Write down the number of pieces you used. ____ Say if the number is greater or less than 10.	Play I Spy Shapes with your Family. Describe what you see in a room and have others guess it. Example: I spy something that has 4 sides and 4 corners (the tv is a rectangle).	How many girls are in your house? How many boys are in your house? (Parents and pets count). Draw a picture and write an addition sentence.	Play I Spy in your house. How many squares can you find? (example: a napkin).	Play the card game "War" with a Family member. Play a second round where the lower number wins.
Use your toys to make a pattern on the floor. (example: car, car, truck, car, car, truck). Ask someone in your house to put the next two toys in the pattern. Play 2-3 times.	Take a basket of toys and sort them by shapes. Then try to sort them by colors and sizes. Can you think of another way to sort them?	Play I Spy in your house. How many circles can you find? (example: a round clock).	How Fast can you say and write your numbers 1-100? Make an estimation and have an adult time you for each.	Review your teen numbers Numbers in the Teens Then write your numbers from 0-20.
Watch a video about shapes like Storybook Shapes Pick a shape and draw real life objects that are that shape.	Help your Family make sandwiches for lunch or dinner. Cut each sandwich four equal pieces.	FREEBIE 	How many books are in your house? Make an estimation then count to see!	Play 5 Minute Pick Up Set the timer and put as many things in a basket or spot on the floor. When the timer goes off, count them and then put them all away.
Find a toy car or another small toy. Use it to measure a chair, table, and an item of your choice in your house! How long was each?	Play I Spy in your house. How many triangles can you find? (example: the play button on a remote).	Play Dotty & Task Patrol's Numbers Can you figure out the rules for the game?	Draw a robot using only circles, squares, rectangles, and triangles. When you are finished, write how many you used of each shape.	Pick a number between 11 and 89. What is less and 1 more than your number? Challenge...what is 10 more and 10 less?
Play I Spy in your house. How many rectangles can you find? (example: a window).	Get up and move! Count to 100 .	Find 10 dimes in your house. Count the money and practice skip counting by 10.	What is something you have 10 of in your house? Find it and count it by putting it into 10 piles with 10 in each pile.	Find 6 items in your bedroom. How many more do you need to gather to make 10? Write an addition sentence.
