	4. Make your own rubber band guitar! You'll need an adult's help for this one. <ul style="list-style-type: none"> - You'll need: a container with a hole in it (empty tissue boxes, shoe boxes, and bread pans work great, but any similar, empty container will work!) and some rubber bands! - Stretch the rubber bands around the container, and pluck them to create sound. - Discuss: what happens when you pull the rubber band tighter? What happens when you loosen it? <div>    </div>
