

# Music

## Questions? Concerns?

Miss Dimovski

dimovskit@springfieldpublicschools.com

Below are six activities. Choose at least 1 from each category to complete this week!

Feel free to email me pictures and videos of your work!

Watch and Listen	1. You may have heard of a famous man named Beethoven. He was a composer, which means he wrote music. Watch this fun video that uses one of his songs! Line Rider- Beethoven's 5 <sup>th</sup> Symphony <a href="https://www.youtube.com/watch?v=vcBn04IyELc">https://www.youtube.com/watch?v=vcBn04IyELc</a>
	2. Instruments are separated into different groups. We call those groups families! Learn about the string family here. <a href="https://www.youtube.com/watch?v=vcBn04IyELc">https://www.youtube.com/watch?v=vcBn04IyELc</a>
Explore	3. Chrome Music Lab – explore all the apps! <a href="https://musiclab.chromeexperiments.com/">https://musiclab.chromeexperiments.com/</a>
	4. Find something that makes sound when you tap it. Does this remind you of any instruments you know of? Choose a name for your new instrument and use it to play along to a song!
Create	5. Make up your own dance to any song you choose. If you can, try to do this outside and get some fresh air!
	6. You'll need an adult's help for this one! Use four similar drinking glasses. In each glass, pour a different amount of water. Use a spoon (or your fingernail) to tap on each glass. What do you notice about the sounds? Play a song!

Pro tip – if you don't like how the glasses sound, try changing the amount of water in them!
